

A supreme flush-floor slide floor plan provides fully reclining theater comfort.

A layout that is sure to impress with best-in-class quality!

The Squire trailer line is expanding thanks to Lance Camper Mfg's new offering, the SQ26. This 26-foot, fully featured trailer is the lauded RV manufacturer's largest travel trailer to date, and it is sure to be a hit.

Squire boasts all the manufacturing advances and construction innovations you expect from Lance. Every screw placement is meticulously planned using SolidWorks CAD design. CNC laser-guided cutting machines ensure a near-zero tolerance for component fit, increasing structural integrity. Dual-layer Azdel. The floor, walls, and ceiling are fully bonded and laminated. We source tried-and-true features and components from decades of experience. All of this is available at a more affordable price point.

The front bedroom has a TV and a full walk-in closet. The main space is the star of the show and features an XL galley counter, which is adjacent to a TV entertainment center with a fireplace. A massive flush floor slide houses fully reclining theater seating, as well as Lance's traditional U-shaped dinette. A full-wall rear bath offers a spacious area for getting ready for an amazing day of camping in comfort.

SPECIFICATIONS

MODEL **SQ26**

Dry Weight*	Est 6700 lbs.
Tongue Weight*	Est 712 lbs.
